

**THE GENERAL TEACHING COUNCIL FOR WALES  
CONSULTATION ON A RETURNING TO TEACHING SCHEME**

1. Do you think that the introduction of a Returning to Teaching Scheme will help returning teachers to be better prepared?

Members believe that much will depend on the process and its quality.

2. Do you think the 10 day period of updating is:

About right       Too short       Too long  ?

Members believe that this should be dealt with on an individual, case-by-case basis as all individuals needs differed.

3. Do you agree with the proposal that the areas chosen for updating should be the responsibility of the individual teacher under the three broad headings: supervised teaching, formal study and self directed study?

Members believe that this was dependent on the reason an individual stopped teaching in the first place.

Members wanted clarification on who would be providing the supervised study.

4. Do you have any other comments?

The principle of the document is to be commended.
